Career Objective

SQL and Python Expert with extensive experience working on projects involving databases and data structures. Basic knowledge about Artificial Intelligence/Machine Learning. Looking for a beginner position where I can utilize my data analysis skills.

Education

Diploma in Data Analytics <i>Tops Technologies</i>	2026 – Present Ahmedabad, Gujarat
Bachelor of Technology in Information Technology <i>Silver Oak University</i>	2022 – 2026 Ahmedabad, Gujarat
Higher Secondary <i>Navrang Madhyamik Shala</i>	2020 – 2021 Ahmedabad, Gujarat

Skills

Programming & Querying: SQL, Python	Database: MySQL, Relational Database Management System	Concepts: Data Structure (Beginner Level), Introduction to ETL, Analytical Reasoning	Tools: Beginner-level Tools – Excel, Git, GitHub
Analytics & AI Concepts: Introduction to AI/ML, Data Visualization			

Certificates

Data Analytics Certification - LearnTube.ai (2026)

Participated in assessment case studies using SQL and data cleaning techniques
Experience in analysis, problem solving, and communicating the findings

Projects

Python AI Stock Analyzer	04/2026 – 05/2026
- Developed an AI-powered stock analysis system that predicts whether a stock is a potential buy based on market trends and sentiment analysis - Built it using Python and libraries such as Pandas, NumPy, Matplotlib, and Scikit-learn for data processing and analysis - Analyzed historical stock data and generated insights to assist users in making data-driven investment decisions	

-

SQL | AI Platform Analytics System

02/2026 – 03/2026

Created relational database structure for managing users, models, subscriptions, and conversations

Used SQL queries to process structured data for analysis and reporting

Wrote complicated queries with the use of join operations, aggregations, and filters

Analyzed data to draw meaningful insights from usage information

Additional Information

Excellent analytical and problem-solving abilities

Fast learner with an interest in artificial intelligence and data analytics

Can work with well-structured data
